Lauren Stern

Breakfast Nook

Anchoring the breakfast nook with its garden views, a Hickory Chair table and chairs is pretty and practical. "I selected furnishings that were functional and comfortable with traditional silhouettes and luxurious finishes," says Lauren Stern. Part of the great room, it's a gorgeous, homey space. Pops of cheerful pink, a bronze chandelier by Hinkley Lighting, and wood flooring from Shaw Floors add contrast to the neutral palette. The bronze armillary in front of the window is a favorite of the designer.
